

The Enterprise Group of Jackson, Inc.

ECONOMIC DEVELOPMENT SUCCESS STORY

PCT International, Inc.

Founded in 1997, PCT International, Inc. (PCT) is a leading world-wide manufacturer of high-performance optical networking and RF products for broadband communication networks. PCT is based out in Gilbert, AZ with corporate headquarters in Tempe, AZ and is a subsidiary of Andes, Inc.

In October 2006, PCT completed the purchase of a 42,000 sq. ft. manufacturing facility in Jackson, MI. The plant is located on 3.75 acres providing the required expansion capabilities for continued growth. PCT's multimillion dollar investment into the facility, equipment and related infrastructure is expected to create in excess of 100 skilled and light-assembly jobs during 2007. The decision to locate PCT's North American manufacturing operations in Jackson is based on a combination of the ample supply of skilled labor, the proximity to customers and favorable state/local government incentives.

PCT received assistance from The Brownfield Redevelopment Authority of Jackson County for all environmental work necessary for their relocation to the former Quick Plastics building on Wayland Drive in the Schelle Industrial Park. The Enterprise Group of Jackson worked extensively with the company to find the perfect location.

Results:

100-200 new jobs in the community.

\$2.5 million investment
